

Hello
sunshine

Think Globally, Act Locally

As a faith-based nonprofit, service is at the heart of our mission. For nearly 60 years, we have been serving seniors by enriching their physical, emotional and spiritual health in our communities by supporting them locally and globally through our ministries.

One of our core values is to be Stewards of Life and take care of our planet's resources. This year, we're taking this idea to heart with activities to engage our residents - all with a mind toward our global environment. Think globally. Act locally.

Celebrate Earth Week - Engage our Residents Build a Sustainable Future

Our residents come from a generation where waste-not, want-not is how they live, whether it's composting egg shells and coffee grounds or enriching the soil with local flora. For Earth Week 2017, our communities are combining our desire to promote an active lifestyle for our residents with a broader sustainability initiative. Our residents have potted a variety of succulents in organic soil. This small act of gardening with love is all part of our hope for a healthier planet.

We invite you to join us in celebrating Earth Week.

Visit Broadmoor Court today to see the good work our residents are doing.
